

86 D

CONVECTION | Oven

 wallas®

WARRANTY
2+1 YEARS

The Greenboost burner burns renewable fossil-free diesel cleanly and energy-efficiently, as well as fossil based diesel fuel.

Exhaust gas is safely expelled outside keeping the indoor air clean and odorless.

Fully enclosed laminar burning process ensures a quiet sound level and dries the indoor air.

Feeding fuel directly from the main tank of the vessel saves space and eliminates the need for a separate tank.

Durable Finnish design and manufacturing keep your Wallas running through tough weather conditions.

Unlike propane cooking systems, Wallas 86 D diesel oven does not require gas inspections.

Domestic style convection oven cooks evenly.

Thermo sensors maintain a precise temperature level for fast and accurate cooking times.

Laminar combustion is a safe flameless burning process.

SPECIFICATIONS

Fuel:	Diesel
Power:	1000-2200 W (3,400-7,500 BTU)
Operating voltage:	12 V
Fuel consumption:	0,1-0,25 l/h (3.3-8.5 oz/h)
Electricity consumption:	1.6 A
Colors:	Stainless steel

UNIQUE MARINE CONVECTION OVEN

The world's first automatic diesel convection oven has a thermostat-controlled fan for fast and accurate cooking times. As there is no open flame, it is safe to use at high temperatures.

COMPLETE COOKING AND HEATING SOLUTIONS

Oven is easy to install together with Wallas stoves and heater blower lids.

24,5 kg
54 lb

Accessories in black come with the standard package. Accessories in blue are additional. The calculated values are measured in a reference measurement wall, which is constructed to respond to a typical boat installation. The technical values have been measured with the maximum length of ducting, exhaust pipe, fuel line, and power cord. The figures allow for 10% reserve - yours may vary.
